

## **Position Announcement**

Blankenship & Seay Consulting Group is comprised of organizational psychologists who deliver assessment-based consulting services to companies to help them make smart human resource and organizational decisions. We have international reach and serve a wide variety of organizations including Fortune 500 companies, mid-sized businesses, partnerships, family-owned businesses, and individuals. Our clients span many industries - technology, electric and gas utilities, food and restaurant services, insurance, engineering, construction, manufacturing, healthcare, and the non-profit sector.

We are looking for an Industrial-Organizational Psychologist to join our firm in Birmingham, Alabama to work in the areas of pre-employment assessment, executive coaching, leadership development and training with our business clients.

### **Responsibilities**

- Work directly with current and potential clients to understand and address their needs
- Present leadership assessment and survey findings
- Provide coaching for our clients
- Create and facilitate interactive leadership training programs
- Identify and propose potential opportunities by contacting existing and prospective clients
- Write reports summarizing assessment data gathered through behavioral interviews, surveys, personality and other assessment-based tools

### **Job Requirements**

- Ph.D. in Industrial/Organizational Psychology or Ph.D. in a related field
- Possesses strong presentation and facilitation skills
- Desires to work in a dynamic and entrepreneurial environment
- Works well with people with diverse backgrounds in various industries
